

HLT43015: Certificate IV in Allied Health Information Sheet

Target Group

Whilst this qualification is available to individuals from all industries, Training Beyond 2000 Pty Limited provides specialist training tailored to address the industry needs of aged care providers operating within the Community Services and Health Industry.

Entry Requirements

To gain entry into *HLT43015 Certificate IV in Allied Health*, a participant must have the relevant literacy and numeracy skills and we recommend that participants have good written and oral communication skills. The qualification will provide you with the skills to provide physiotherapy assistance under the supervision of an allied health professional.

Qualification Description

This qualification reflects the role of workers who provide therapeutic and program related support to allied health professionals. The worker is required to conduct therapeutic and program related activities under the guidance of an allied health professional. Supervision may be direct, indirect or remote and must occur within organisation requirements. The worker is required to identify client circumstances that need additional input from the allied health professional. The worker may be engaged to work in a specialty area or work generically across the organisation in delivery of allied health assistance services. The worker, in conjunction with the allied health professional, may have responsibility for supervising other allied health assistance workers.

To achieve this qualification, the candidate must have completed at least **120 hours** of work as detailed in the Assessment Requirements of the units of competency.

Volume of Training and Mode of Delivery

This qualification is delivered face to face in a formal classroom setting. The mode of delivery has been adopted after consultation with industry. The volume of training for this qualification has been determined after having regard to the requirements and complexity of the qualification, the likely profile of the typical participants and the mode of delivery. Having regard to these factors, the volume of training is considered sufficient to enable a participant to satisfy the requirements of the qualification and gain the specified requisite skills and knowledge.

The classroom component of the training qualification is delivered over a **32 week period of 5 hours per day, one day per week**.

The qualification will be delivered through class-based tasks that will simulate the specific industry environment. In addition to the face to face training, all participants will be instructed and assessed on practical tasks in a work place environment.

A range of teaching and learning strategies will be used to deliver the competencies. These include:

- practical tasks;
- group work;
- activities in simulated work environments; and
- activities in a work environment.

Participants are also able to communicate with their trainer via email/telephone. Training Beyond 2000 Pty Ltd will ensure participants have every reasonable opportunity to complete their training qualification.

Course Cost

You may be eligible for government subsidised training under NSW Government or Commonwealth Government programs providing you meet specific eligibility criteria. More information is available in our Participant Information Handbook, which can be found on our website.

Participants who are not eligible to receive subsidised funding for this qualification will be able to enrol in this qualification for a total cost of \$1,800. A deposit of \$300 is required to secure your place in the class. Participants need to contact the Director to work out a payment instalment plan.
